

Zero Emissions Day initiative to promote Recycling and Reduce Carbon Footprint

As part of our ongoing commitment to sustainability and environmental responsibility, Bayan Investment Holding Company is proud to participate in Zero Emissions Day September 21st by launching an internal initiative. This aims to raise awareness about reducing carbon emissions and promoting recycling among employees.

The initiative includes distributing dedicated recycling bins for used plastic water bottles within the company's facilities, in addition to improving paper recycling processes, as the company has collaborated with local recycling company. It is worth mentioning that the company continuously recycles its paper prints through internal reuse processes, aiming to reduce waste and promote practices that conserve environmental resources.

This effort reflects our dedication to integrating social responsibility with sustainability, striving to play a responsible role in protecting the environment and building a more sustainable future. "Every small step makes a difference, and teamwork is essential to creating a positive environmental impact for future generations."
